**Audit Logistics, LLC Awarded Freight Management
For the Inn at the Presidio, San Francisco, CA**

Colorado based Audit Logistics, LLC has been selected by Ramsey Purchasing to provide freight management services for the Inn at the Presidio, currently under construction in the Presidio of San Francisco. The property is scheduled to open April 1st, 2012.

The Inn at the Presidio will be located in Pershing Hall, a historic bachelor officers' quarters building originally constructed in 1903. The Presidio Trust is leading the rehabilitation of the building in partnership with the Architectural Resources Group. The project includes 22 guest suites, a reception/lounge in the historic officers' lounge, and a dining room in the historic officers' mess hall. The interior design and furnishing highlight historic elements, while integrating new elements that embrace the modest character of the building. The project is targeting a LEED Gold rating. FF&E is being purchased through Ramsey Purchasing.

About Ownership: The Presidio Trust was established by the United States Congress in 1996 to administer the Presidio of San Francisco, an urban national park site located at the base of the Golden Gate Bridge. The Presidio is one of the largest and most ambitious historic preservation projects underway in the United States. For more information: www.presidio.gov

About Purchasing: Ramsey Purchasing is a San Francisco based firm, specializing in Furniture, Fixture and Equipment (FF&E) purchasing management services and related consulting for the hospitality industry. Since 1987, they have developed a reputation as a reliable, on-time and savvy purchasing firm. For more information, visit <http://www.ramseypurchasing.com>.

About Audit Logistics, LLC is a Denver based freight and warehouse management company that mainly services the hospitality industry. The company benefits hotel owners by offering web-based reporting,

low costs, and green programs for both freight and warehousing. *For more information please contact Matt Sysko at msysko@auditlogistics.com.*
